

MRISB 4-STEP LESSON DESIGN | UbD × ETEC

OUTCOME → PROOF → PREPARE → RESPOND → REFLECT Plan the learning first; let the checklist follow. Click a field to type • click a box to tick it.

Teacher	Subject	Grade / Section	Date / Period	Unit / Topic
Mr. Ashraf Elbially	Computer Studies (DigiChamps L10)	Grade 10 - Classes 10/1 to 10/6	Wk 7 (4-8 Oct 2026) - Period 2	Unit 2 - 2.1 Creative Photo Editing (2/2)
Pacing (2-1-1-2): ☒ On plan ☐ Ahead ☐ Behind Weeks ahead / behind: 0 Week / lesson: Week 7 / Lesson 2 of 2		Starting point (2-2-1-3): What did my last check (quiz, exit ticket, homework) show — and what am I changing today because of it? Exit ticket P1: 85% matched selection tools; Foreground Select steps shaky for ~5 per class. 3-min re-demo, then filters and painting effects.		

1 OUTCOMES — What must students learn?

Desired learning outcome(s) — trace to the curriculum / standard and the table of specifications (ToS)

Students change the look of images with GIMP filters: Old Photo (Defocus, Sepia, Mottle, Border), and painting effects GIMPpressionist, Apply Canvas and Oilify. Sprint 2.1 obj. 2-4; Challenges 2-3; ISTE 6.b.

Success criteria — what will successful learning look / sound like?

I can turn a photo into an old-looking photograph with Filters > Decor > Old Photo; I can apply 2 artistic filters and explain what at least 2 settings change.

Key knowledge / skill / understanding:

Filters change pixel characteristics; Preview before OK; Work on Copy protects the original.

Likely misconception / access or challenge need:

Sepia = grayscale; more effects = better art. EAL: explain 'mottle', 'jagged', 'brush stroke'.

2 PROOF — What will students do to show they have learned it? Three activities, each with a DIFFERENT strategy, resource and evidence tool. Then tick the Coverage Check on page 2.

ACTIVITY 1 student task + evidence of learning	ACTIVITY 2 student task + evidence of learning	ACTIVITY 3 student task + evidence of learning
Strategy: Discussion / dialogue ☐ Time: 6 min	Strategy: Stations / carousel ☐ Time: 22 min	Strategy: Gamification ☐ Time: 8 min
What students will do: Compare a modern and an old-look photo of the same monument. Pairs list 3 visible differences and guess which Old Photo options made them.	What students will do: Challenge 3 + Challenge 2 as stations (7 min each): A) monument from your own heritage > Old Photo with border; B) GIMPpressionist (Paper/Brush tabs); C) Apply Canvas + Oilify. Record one setting and its effect per station.	What students will do: Quizizz 'Name that filter': see an edited image, pick the filter/setting used; bonus for the menu path.
Evidence tool: Oral questioning ☐ Assessment: ☒ Diagnostic ☐ Formative ☐ End Grouping: ☐ Individual ☒ Pair ☐ Group	Evidence tool: Observation checklist ☐ Assessment: ☐ Diagnostic ☒ Formative ☐ End Grouping: ☐ Individual ☐ Pair ☒ Group	Evidence tool: Digital quiz (Forms / Kahoot / Quizizz) ☐ Assessment: ☐ Diagnostic ☒ Formative ☐ End Grouping: ☒ Individual ☐ Pair ☐ Group
Resources: Before/after monument slide; vocabulary list (border, jagged, filter).	Resources: GIMP; image pack PXI2; Wikimedia Commons; QR videos kCEN, 1CA9; station cards.	Resources: Quizizz with 8 image questions.
Support (low performers / SEN): Picture vocabulary; frame 'It looks ... because ...'.	Support (low performers / SEN): Station cards with numbered screenshots; images pre-resized to 1200 px.	Support (low performers / SEN): Image-based answers; play in teams if needed.
Stretch (fast learners / gifted): Predict what each Old Photo checkbox changes before testing.	Stretch (fast learners / gifted): Combine 2 effects on separate layers with opacity; add a credit line.	Stretch (fast learners / gifted): Bonus: exact menu path for each filter.

3 PREPARE — What do I need to do so students can succeed?

Set students up to succeed:

- ☒ Hook / prior learning ☒ Explain or model ☒ Success criteria shared
- ☒ Key vocabulary / examples ☒ Real-life connection ☒ Clear instructions / resources
- ☒ Praise, recognition and reinforcement planned

My setup / modelling: Time: 7 min

Retrieval: 3-min re-demo of Foreground Select. Hook: 'How would this monument have looked in 1920?' Model Filters > Decor > Old Photo (Defocus, Sepia, Mottle, Border Size, Work on Copy), then Filters > Artistic > GIMPpressionist with Preview on. Explain station rotation and the credit line: 'Photo: name, source'.

What is new or innovative in this lesson? (ETEC looks for this)

Culturally responsive brief: each student ages a monument from their own heritage, building a class 'world gallery'; stations keep everyone hands-on.

Progress recorded / shared:

- ☒ Gradebook ☐ Parents ☒ Written feedback in notebook / portfolio

4 RESPOND — What will I do with what I see and hear?

If students struggle or finish early I will:

- ☒ Re-teach ☒ Regroup ☒ Give extra support
- ☒ Stretch ☒ Have students redo / improve

What I will watch for / likely responses:

Watermarked images (IP link); filters applied to the wrong layer; large images freezing PCs on Oilify; no image credit. Likely: 'Sepia makes it black and white' / 'I see no change' (settings too small).

Close / exit check (summative + time for learners' questions) Time: 7 min

Gallery: 3 students show work and name one setting. Exit check (Forms, 2 Qs) on Old Photo options + artistic filters. Learners' questions.

Homework / platform (e.g. Madrasati)

Madrasati: upload your old-photo monument + one painted image with source credits. Watch QR 'Enhance color' (aCT4).

5 REFLECT — After the lesson *Complete within a day. This is reflective-practice evidence and feeds your next Starting point.*

What worked — and how do I know?

Heritage monuments got strong engagement: Egyptian, Pakistani, Filipino and Saudi students shared stories. Quizizz: 80% named the filter correctly.

What will I change next time?

Resize images before class (2 PCs froze on Oilify). Give the trusted image-site list at the start to save search time.

Students needing follow-up:

10/2 and 10/6: about 5 students did not finish station C. Two SEN students need printed station cards.

COVERAGE CHECK *Tick where each must-have happens (1 · 2 · 3 = activity, C = close, H = homework). An empty box is a gap to fix before teaching. Literacy and numeracy apply in every subject.*

Literacy read + write · 2-1-1-6	Numeracy numbers / data · 2-1-1-6	Digital students use it · 2-1-1-4	Digital research trusted sources · 2-1-1-4	Real-life ① application · 2-1-1-5	Real-life ② application · 2-1-1-5	Inquiry experiment / research · 2-1-1-7	Thinking problem-solving · 2-1-1-7
☒ 1 ☐ 2 ☐ 3 ☒ C ☐ H	☐ 1 ☒ 2 ☐ 3 ☐ C ☐ H	☐ 1 ☒ 2 ☒ 3 ☐ C ☒ H	☐ 1 ☒ 2 ☐ 3 ☐ C ☒ H	☐ 1 ☒ 2 ☐ 3 ☐ C ☐ H	☒ 1 ☐ 2 ☐ 3 ☐ C ☐ H	☐ 1 ☒ 2 ☐ 3 ☐ C ☐ H	☐ 1 ☐ 2 ☒ 3 ☐ C ☐ H
