MRISB 4-STEP LESSON DESIGN | UbD × ETEC

OUTCOME → PROOF → PREPARE → RESPOND → REFLECT *Plan the learning first; let the checklist follow. Click a field to type · click a box to tick it.*

Teacher	Subject	Grade / Section	Date / Period	Unit / Topic
Mr. Ashraf Elbialy	Computer Studies (DigiChamps L10)	Grade 10 - Classes 10/1 to 10/6	Wk 7 (4-8 Oct 2026) - Period 1	Unit 2 - 2.1 Creative Photo Editing (1/2)

Pacing (2-1-1-2): ☑ On plan ☐ Ahead ☐ Behind

Weeks ahead / behind: 0 **Week / lesson:** Week 7 / Lesson 1 of 2

Starting point (2-2-1-3): *What did my last check (quiz, exit ticket, homework) show — and what am I changing today because of it?*

Unit 1 exit quiz: security measures secure; ~30% unsure when an online image may be reused (IP). Today: quick 'Can I use this image?' check before editing.

1 OUTCOMES — What must students learn?

Desired learning outcome(s) — *trace to the curriculum / standard and the table of specifications (ToS)*

Students use GIMP selection tools (Rectangle, Ellipse, Free, Fuzzy, By Color, Intelligent Scissors, Foreground Select) to isolate a subject and change the background. CSTA 3A-DA-09; ISTE 6.b; Sprint 2.1 obj. 1.

Success criteria — *what will successful learning look / sound like?*

I can choose the right selection tool for an object's edges; I can isolate a subject with Foreground Select and place it on a new background with clean edges.

Key knowledge / skill / understanding:

Selection = the area edits apply to; tool choice depends on edges/colour; layers keep the original safe.

Likely misconception / access or challenge need:

'Delete the background' = erase by hand; EAL learners need tool names shown with icons.

2 PROOF — What will students do to show they have learned it?

Three activities, each with a DIFFERENT strategy, resource and evidence tool. Then tick the Coverage Check on page 2.

ACTIVITY 1 *student task + evidence of learning*

Strategy: Think-pair-share **Time:** 8 min

What students will do:

Students view 3 photos (sharp-edged box, single-colour sky, person with complex outline). Individually choose the best selection tool for each, agree with a partner, then share and justify.

Evidence tool: Mini-whiteboards

Assessment: ☑ Diagnostic ☐ Formative ☐ End

Grouping: ☐ Individual ☑ Pair ☐ Group

Resources:

Slide with 3 photos; mini-whiteboards; GIMP selection-tools icon card.

Support (low performers / SEN):

Icon card with tool name + picture + Arabic/English keyword.

Stretch (fast learners / gifted):

Explain when Intelligent Scissors beats Fuzzy Select and why.

ACTIVITY 2 *student task + evidence of learning*

Strategy: Problem solving **Time:** 22 min

What students will do:

Master Challenge 1: open an image with several objects (unit image pack), use Foreground Select to isolate one object, then add a new background on a separate layer. Save as .xcf and export .png.

Evidence tool: Practical / performance task

Assessment: ☐ Diagnostic ☑ Formative ☐ End

Grouping: ☑ Individual ☐ Pair ☐ Group

Resources:

GIMP 2.10; image pack go.qubitscs.com/PXl2; student book Sprint 2.1; QR video p7LO.

Support (low performers / SEN):

Step card with screenshots; start from a simple high-contrast image; teacher check-in at step 3.

Stretch (fast learners / gifted):

Use a hair/fur image and refine the mask; add a soft shadow so the subject sits naturally.

ACTIVITY 3 *student task + evidence of learning*

Strategy: Cooperative learning **Time:** 7 min

What students will do:

Pairs swap screens and check each other's edge quality, layer use and file saved, using a 3-point checklist; give one 'glow' and one 'grow'.

Evidence tool: Peer-assessment checklist

Assessment: ☐ Diagnostic ☑ Formative ☐ End

Grouping: ☐ Individual ☑ Pair ☐ Group

Resources:

Printed / Teams 3-point peer checklist.

Support (low performers / SEN):

Checklist with sentence starters ('The edge is... because...').

Stretch (fast learners / gifted):

Suggest which other selection tool could improve the edge.

3 PREPARE — What do I need to do so students can succeed?

Set students up to succeed:

☑ Hook / prior learning ☑ Explain or model ☑ Success criteria shared

☑ Key vocabulary / examples ☑ Real-life connection ☑ Clear instructions / resources

☑ Praise, recognition and reinforcement planned

My setup / modelling: Time: 6 min

Hook: show a before/after where a student photo of a school trip gets a new background. Share success criteria. Live-model on the board: Rectangle vs Fuzzy vs Foreground Select on one image; think aloud about edges; show the purple mask and Preview mask; key words on board: selection, mask, layer, foreground, export.

What is new or innovative in this lesson? *(ETEC looks for this)*

Students choose a background from a place that matters to them (home country, Makkah, AlUla, a city skyline) - their culture becomes the design brief; peer feedback in pairs via Teams.

Progress recorded / shared:

☑ Gradebook ☐ Parents ☑ Written feedback in notebook / portfolio

4 RESPOND — What will I do with what I see and hear?

If students struggle or finish early I will:

☑ Re-teach ☑ Regroup ☑ Give extra support

☑ Stretch ☑ Have students redo / improve

What I will watch for / likely responses:

Students painting the whole image instead of the subject; forgetting to click Select/Enter so nothing is selected; editing the original layer with no backup; saving only .xcf. Likely responses: 'Fuzzy select for everything'. Probe: 'What happens at a blurry edge?'

Close / exit check *(summative + time for learners' questions)* Time: 7 min

Exit ticket (Forms, 3 Qs): match tool to image situation; name the menu where Foreground Select lives; one thing still unclear. 2 min left for learners' questions.

Homework / platform *(e.g. Madrasati)*

Madrasati: upload exported .png + one sentence on which selection tool you used and why. Watch QR video 'Looks of image' (kCEN) for next lesson.

5 REFLECT — After the lesson

Complete within a day. This is reflective-practice evidence and feeds your next Starting point.

What worked — and how do I know?

Think-pair-share got EAL students talking: the icon card helped them name tools. 24/28 (10/1) produced a clean cut-out; exit tickets showed tool choice understood.

What will I change next time?

Model Foreground Select twice: many skipped the 'click inside then paint' step. Pair a confident GIMP user with each new user from the start.

Students needing follow-up:

10/3 and 10/5: 4-5 students did not finish export (slow PC login). Recently arrived EAL students: check tool vocabulary next lesson.

COVERAGE CHECK

Tick where each must-have happens (1 · 2 · 3 = activity, C = close, H = homework). An empty box is a gap to fix before teaching. Literacy and numeracy apply in every subject.

Literacy	Numeracy	Digital	Digital research	Real-life ①	Real-life ②	Inquiry	Thinking
read + write · 2-1-1-6	numbers / data · 2-1-1-6	students use it · 2-1-1-4	trusted sources · 2-1-1-4	application · 2-1-1-5	application · 2-1-1-5	experiment / research · 2-1-1-7	problem-solving · 2-1-1-7
☑1 ☐2 ☐3 ☑C ☐H	☐1 ☑2 ☐3 ☐C ☐H	☑1 ☑2 ☑3 ☐C ☑H	☐1 ☐2 ☐3 ☐C ☑H	☐1 ☑2 ☐3 ☐C ☐H	☐1 ☐2 ☐3 ☐C ☑H	☑1 ☐2 ☐3 ☐C ☐H	☑1 ☑2 ☐3 ☐C ☐H

Create	Discussion	Pair / group	Learner choice	Self-assessment	Peer assessment	SEN / low	Gifted
something new · 2-1-1-7	expressing ideas · 2-1-1-8	cooperative work · 2-1-1-8	independent work · 3-2-1-6	2-2-1-1	2-2-1-1	specific support · 2-1-1-3	specific stretch · 2-1-1-3
☐1 ☑2 ☐3 ☐C ☑H	☑1 ☐2 ☑3 ☐C ☐H	☑1 ☐2 ☑3 ☐C ☐H	☐1 ☑2 ☐3 ☐C ☐H	☐1 ☐2 ☐3 ☑C ☐H	☐1 ☐2 ☑3 ☐C ☐H	☑1 ☑2 ☑3 ☐C ☐H	☑1 ☑2 ☑3 ☐C ☐H

ALWAYS VISIBLE IN DELIVERY: Safe, respectful climate • every learner drawn in • purposeful use of time • smooth transitions • learner voice • specific feedback and next steps • students act on feedback

MRISB 4-STEP LESSON DESIGN | UbD × ETEC

OUTCOME → PROOF → PREPARE → RESPOND → REFLECT *Plan the learning first; let the checklist follow. Click a field to type · click a box to tick it.*

Teacher	Subject	Grade / Section	Date / Period	Unit / Topic
Mr. Ashraf Elbialy	Computer Studies (DigiChamps L10)	Grade 10 - Classes 10/1 to 10/6	Wk 7 (4-8 Oct 2026) - Period 2	Unit 2 - 2.1 Creative Photo Editing (2/2)

Pacing (2-1-1-2): ☑ On plan ☐ Ahead ☐ Behind

Weeks ahead / behind: 0 **Week / lesson:** Week 7 / Lesson 2 of 2

Starting point (2-2-1-3): *What did my last check (quiz, exit ticket, homework) show — and what am I changing today because of it?*

Exit ticket P1: 85% matched selection tools; Foreground Select steps shaky for ~5 per class. 3-min re-demo, then filters and painting effects.

1 OUTCOMES — What must students learn?

Desired learning outcome(s) — *trace to the curriculum / standard and the table of specifications (ToS)*

Students change the look of images with GIMP filters: Old Photo (Defocus, Sepia, Mottle, Border), and painting effects GIMPressionist, Apply Canvas and Oilify. Sprint 2.1 obj. 2-4; Challenges 2-3; ISTE 6.b.

Success criteria — *what will successful learning look / sound like?*

I can turn a photo into an old-looking photograph with Filters > Decor > Old Photo; I can apply 2 artistic filters and explain what at least 2 settings change.

Key knowledge / skill / understanding:

Filters change pixel characteristics; Preview before OK; Work on Copy protects the original.

Likely misconception / access or challenge need:

Sepia = grayscale; more effects = better art. EAL: explain 'mottle', 'jagged', 'brush stroke'.

2 PROOF — What will students do to show they have learned it?

Three activities, each with a DIFFERENT strategy, resource and evidence tool. Then tick the Coverage Check on page 2.

ACTIVITY 1 *student task + evidence of learning*

Strategy: Discussion / dialogue **Time:** 6 min

What students will do:

Compare a modern and an old-look photo of the same monument. Pairs list 3 visible differences and guess which Old Photo options made them.

Evidence tool: Oral questioning

Assessment: ☑ Diagnostic ☐ Formative ☐ End

Grouping: ☐ Individual ☑ Pair ☐ Group

Resources:

Before/after monument slide; vocabulary list (border, jagged, filter).

Support (low performers / SEN):

Picture vocabulary; frame 'It looks ... because ...'.

Stretch (fast learners / gifted):

Predict what each Old Photo checkbox changes before testing.

ACTIVITY 2 *student task + evidence of learning*

Strategy: Stations / carousel **Time:** 22 min

What students will do:

Challenge 3 + Challenge 2 as stations (7 min each): A) monument from your own heritage > Old Photo with border; B) GIMPressionist (Paper/Brush tabs); C) Apply Canvas + Oilify. Record one setting and its effect per station.

Evidence tool: Observation checklist

Assessment: ☐ Diagnostic ☑ Formative ☐ End

Grouping: ☐ Individual ☐ Pair ☑ Group

Resources:

GIMP; image pack PXI2; Wikimedia Commons; QR videos kCEN, 1CA9; station cards.

Support (low performers / SEN):

Station cards with numbered screenshots; images pre-resized to 1200 px.

Stretch (fast learners / gifted):

Combine 2 effects on separate layers with opacity; add a credit line.

ACTIVITY 3 *student task + evidence of learning*

Strategy: Gamification **Time:** 8 min

What students will do:

Quizizz 'Name that filter': see an edited image, pick the filter/setting used; bonus for the menu path.

Evidence tool: Digital quiz (Forms / Kahoot / Quizizz)

Assessment: ☐ Diagnostic ☑ Formative ☐ End

Grouping: ☑ Individual ☐ Pair ☐ Group

Resources:

Quizizz with 8 image questions.

Support (low performers / SEN):

Image-based answers; play in teams if needed.

Stretch (fast learners / gifted):

Bonus: exact menu path for each filter.

3 PREPARE — What do I need to do so students can succeed?

Set students up to succeed:

☑ Hook / prior learning ☑ Explain or model ☑ Success criteria shared

☑ Key vocabulary / examples ☑ Real-life connection ☑ Clear instructions / resources

☑ Praise, recognition and reinforcement planned

My setup / modelling: Time: 7 min

Retrieval: 3-min re-demo of Foreground Select. Hook: 'How would this monument have looked in 1920?' Model Filters > Decor > Old Photo (Defocus, Sepia, Mottle, Border Size, Work on Copy), then Filters > Artistic > GIMPressionist with Preview on. Explain station rotation and the credit line: 'Photo: name, source'.

What is new or innovative in this lesson? *(ETEC looks for this)*

Culturally responsive brief: each student ages a monument from their own heritage, building a class 'world gallery'; stations keep everyone hands-on.

Progress recorded / shared:

☑ Gradebook ☐ Parents ☑ Written feedback in notebook / portfolio

4 RESPOND — What will I do with what I see and hear?

If students struggle or finish early I will:

☑ Re-teach ☑ Regroup ☑ Give extra support

☑ Stretch ☑ Have students redo / improve

What I will watch for / likely responses:

Watermarked images (IP link); filters applied to the wrong layer; large images freezing PCs on Oilify; no image credit. Likely: 'Sepia makes it black and white' / 'I see no change' (settings too small).

Close / exit check *(summative + time for learners' questions)* Time: 7 min

Gallery: 3 students show work and name one setting. Exit check (Forms, 2 Qs) on Old Photo options + artistic filters. Learners' questions.

Homework / platform *(e.g. Madrasati)*

Madrasati: upload your old-photo monument + one painted image with source credits. Watch QR 'Enhance color' (aCT4).

5 REFLECT — After the lesson

Complete within a day. This is reflective-practice evidence and feeds your next Starting point.

What worked — and how do I know?

Heritage monuments got strong engagement: Egyptian, Pakistani, Filipino and Saudi students shared stories. Quizizz: 80% named the filter correctly.

What will I change next time?

Resize images before class (2 PCs froze on Oilify). Give the trusted image-site list at the start to save search time.

Students needing follow-up:

10/2 and 10/6: about 5 students did not finish station C. Two SEN students need printed station cards.

COVERAGE CHECK

Tick where each must-have happens (1 · 2 · 3 = activity, C = close, H = homework). An empty box is a gap to fix before teaching. Literacy and numeracy apply in every subject.

Literacy	Numeracy	Digital	Digital research	Real-life ①	Real-life ②	Inquiry	Thinking
