MRISB 4-STEP LESSON DESIGN | UbD × ETEC

OUTCOME → PROOF → PREPARE → RESPOND → REFLECT *Plan the learning first; let the checklist follow. Click a field to type · click a box to tick it.*

Teacher	Subject	Grade / Section	Date / Period	Unit / Topic
Mr. Ashraf Elbialy	Computer Studies (DigiChamps L10)	Grade 10 - Classes 10/1 to 10/6	Wk 9 (18-22 Oct 2026) - Period 2	Unit 2 - Assessment (Photo & Video Editing)

Pacing (2-1-1-2): ☑ On plan ☐ Ahead ☐ Behind

Weeks ahead / behind: 0 **Week / lesson:** Week 9 / Lesson 2 of 2

Starting point (2-2-1-3): *What did my last check (quiz, exit ticket, homework) show — and what am I changing today because of it?*

Videos submitted by ~85%; keyframes and export modes understood by most. Today's assessment checks all Unit 2 outcomes; extra time for SEN.

1 OUTCOMES — What must students learn?

Desired learning outcome(s) — *trace to the curriculum / standard and the table of specifications (ToS)*

Assess Unit 2: selection tools, filters, colour tools, repair tools (GIMP) and OpenShot profiles, effects and export, through a written quiz and a practical task aligned to the ToS. Sprint 2.1-2.3.

Success criteria — *what will successful learning look / sound like?*

I answer MCQ, fill-in and matching items accurately; I complete a practical GIMP task to the given specification; I reflect honestly on my Unit 2 progress.

Key knowledge / skill / understanding:

All Unit 2 vocabulary: border, filters, jagged, pattern, brush stroke, compress, time-lapse, keyframe.

Likely misconception / access or challenge need:

Rushing the practical without reading the spec; EAL students: read questions aloud if needed.

2 PROOF — What will students do to show they have learned it?

Three activities, each with a DIFFERENT strategy, resource and evidence tool. Then tick the Coverage Check on page 2.

ACTIVITY 1 *student task + evidence of learning*

Strategy: Problem solving **Time:** 15 min

What students will do:

Written section (Forms): 6 MCQ, 4 fill-in-the-blanks, 5 match-the-following and 2 short answers (Simple vs Advanced export; how to make an image look old).

Evidence tool: Short quiz

Assessment: ☐ Diagnostic ☐ Formative ☑ End

Grouping: ☑ Individual ☐ Pair ☐ Group

Resources:

Forms quiz from Unit 2 exercise bank; ToS.

Support (low performers / SEN):

Read-aloud option; glossary allowed for EAL; +10% time for SEN.

Stretch (fast learners / gifted):

Extended answer: compare two background-removal methods.

ACTIVITY 2 *student task + evidence of learning*

Strategy: Project-based task **Time:** 22 min

What students will do:

Practical: given an image pack, isolate a subject, place it on a new background, apply one colour correction and one artistic filter, then export as .png with a credit line.

Evidence tool: Practical / performance task

Assessment: ☐ Diagnostic ☐ Formative ☑ End

Grouping: ☑ Individual ☐ Pair ☐ Group

Resources:

GIMP; assessment image pack; practical spec + marking rubric.

Support (low performers / SEN):

Simplified spec with checklist ticks.

Stretch (fast learners / gifted):

Add a clone repair and a fuzzy border; justify choices in 2 lines.

ACTIVITY 3 *student task + evidence of learning*

Strategy: Discussion / dialogue **Time:** 5 min

What students will do:

Self-assessment: students rate their confidence on each Unit 2 skill (traffic light) and write one target for the next unit.

Evidence tool: Self-assessment checklist

Assessment: ☐ Diagnostic ☐ Formative ☑ End

Grouping: ☑ Individual ☐ Pair ☐ Group

Resources:

Traffic-light self-assessment sheet (Forms).

Support (low performers / SEN):

Smiley-face scale + short phrases.

Stretch (fast learners / gifted):

Write a personal learning goal (ISTE 1.a).

3 PREPARE — What do I need to do so students can succeed?

Set students up to succeed:

☑ Hook / prior learning ☑ Explain or model ☑ Success criteria shared

☑ Key vocabulary / examples ☑ Real-life connection ☑ Clear instructions / resources

☑ Praise, recognition and reinforcement planned

My setup / modelling: Time: 4 min

Clear instructions: timing, rules for practical, where to save (Assessments folder, file name Class_Name_U2). Read through the rubric and success criteria. Remind students to check spelling of file names. No modelling; quick reassurance for anxious learners.

What is new or innovative in this lesson? *(ETEC looks for this)*

Assessment combines a digital auto-marked quiz with a practical rubric and student self-assessment, giving 3 types of evidence.

Progress recorded / shared:

☑ Gradebook ☑ Parents ☑ Written feedback in notebook / portfolio

4 RESPOND — What will I do with what I see and hear?

If students struggle or finish early I will:

☑ Re-teach ☑ Regroup ☑ Give extra support

☑ Stretch ☑ Have students redo / improve

What I will watch for / likely responses:

Students stuck on export; students opening the internet for answers; anxiety among new students - circulate calmly, read questions aloud on request, keep extra time for SEN plan.

Close / exit check *(summative + time for learners' questions)* Time: 4 min

Collect files; quick 1-minute check that every file is saved correctly. Learners' questions about next unit (Game Interface).

Homework / platform *(e.g. Madrasati)*

Madrasati: preview Unit 3 - install VS Code at home if possible (QR yCJk) and bring 1 idea for a simple web game.

5 REFLECT — After the lesson

Complete within a day. This is reflective-practice evidence and feeds your next Starting point.

What worked — and how do I know?

Quiz average approx. 76%; practical rubric average level 3. Self-assessment matched teacher marks for most students - they know their gaps.

What will I change next time?

Practical spec was long for EAL learners: use bullet icons next time. Allow 5 more minutes for the practical.

Students needing follow-up:

Students below 50% (approx. 2-3 per class) for re-teach of selection tools; inform parents via gradebook comment.

COVERAGE CHECK

Tick where each must-have happens (1 · 2 · 3 = activity, C = close, H = homework). An empty box is a gap to fix before teaching. Literacy and numeracy apply in every subject.

Literacy read + write · 2-1-1-6	Numeracy numbers / data · 2-1-1-6	Digital students use it · 2-1-1-4	Digital research trusted sources · 2-1-1-4	Real-life ① application · 2-1-1-5	Real-life ② application · 2-1-1-5	Inquiry experiment / research · 2-1-1-7	Thinking problem-solving · 2-1-1-7
☑1 ☐2 ☐3 ☐C ☐H	☑1 ☐2 ☐3 ☐C ☐H	☑1 ☑2 ☐3 ☐C ☑H	☐1 ☐2 ☐3 ☐C ☑H	☐1 ☑2 ☐3 ☐C ☐H	☐1 ☐2 ☐3 ☐C ☑H	☐1 ☐2 ☐3 ☐C ☑H	☑1 ☑2 ☐3 ☐C ☐H
Create something new · 2-1-1-7	**Discussion** expressing ideas · 2-1-1-8	**Pair / group** cooperative work · 2-1-1-8	**Learner choice** independent work · 3-2-1-6	**Self-assessment** 2-2-1-1	**Peer assessment** 2-2-1-1	**SEN / low** specific support · 2-1-1-3	**Gifted** specific stretch · 2-1-1-3
☐1 ☑2 ☐3 ☐C ☐H	☐1 ☐2 ☑3 ☐C ☐H	☐1 ☐2 ☐3 ☐C ☑H	☐1 ☑2 ☐3 ☐C ☐H	☐1 ☐2 ☑3 ☐C ☐H	☐1 ☐2 ☐3 ☑C ☐H	☑1 ☑2 ☑3 ☐C ☐H	☑1 ☑2 ☑3 ☐C ☐H

ALWAYS VISIBLE IN DELIVERY: Safe, respectful climate • every learner drawn in • purposeful use of time • smooth transitions • learner voice • specific feedback and next steps • students act on feedback
